-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

Claim Rejections - 35 USC § 102

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
2. Claims 9-24 are rejected under 35 U.S.C. 102(e) as being anticipated by Mochida et al. (U.S. Pat. 6,690,410) for the reasons set forth in numbered paragraph 3 of the previous Office Action, paper number 20061025.

As to the newly added limitations to claims 9, 10, 11, 16, 17, 18, 23 and 24 regarding output from a first signal processing device to a first display device and output from a second/third signal processing device to a second display device, note Figure 11 of Mochida et al. Figure 11 shows an embodiment wherein a first display device (see "TO MONITOR" off of encoder 37) and a second display device (see "TO SECOND MONITOR" off of encoder 104) are used. In addition, note Figure 37 which shows generally the same thing except the second display device is a PC (667). Also note Figure 76 which shows three separate outputs: one from encoder (37) which is disclosed as going to a monitor, and two from the expansion substrates (1507,1508) which is disclosed as going to recording devices. Since recording of such images are usually with the intention of viewing, it could be argued that a display device would accompany each recording device.

Response to Arguments

3. Applicant's arguments filed January 30, 2007 have been fully considered but they are not persuasive.

Applicant argues that the plurality of substrates are connected to only one monitor. However, as pointed out above, multiple monitors are taught and suggested by Mochida et al.

Conclusion

4. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
